***REASONS FOR ALLOWANCE***

The following is an examiner's statement of reasons for allowance:

Applicant has amended the instant claims to delete macromolecular crosslinkers obtained from ethylene monomer units and to limit the claims to macromolecular crosslinkers obtained from siloxane monomer units, one of which carries a photoactive acyl or aroyl phosphine oxide group. The prior art known to the examiner teaches polysiloxanes carrying photoactive groups, but not polysiloxanes carrying acyl or aroyl phosphine oxide groups. The prior art teaches compositions comprising polysiloxanes and acyl or aroyl phosphine oxides added as a separate photoinitiating component.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Susan W Berman whose telephone number is 571 272 1067. The examiner can normally be reached on M-F 9:30-6:00.
